GREEN SEAL is the GOLD standard for environmental and sustainable cleaning products in the USA commercial, industrial and institutional markets, The particular USA standard that we used to determine qualifying products is called GS37. We have attached that standard to this bid.

### On Premise Laundry

Laundry Pumping Systems are Installed, calibrated, serviced, repaired and replaced (if needed) at NO CHARGE to KPC members

Product	Price	Item Number
Tide SC (5 Gal)	\$192.07	PG-OPTDSC-EA
Color Safe Bleach (5 Gal)	\$281.35	PG-OPCSB5-EA
Downy (5 Gal)	\$114.27	PG-OPDOWN5-EA

Proctor & Gamble has created its on set of standards for producing products that meet or exceed Green Seal standards.

P&G Professional's On-Premise Laundry program ensures the environmental safety of its products, packaging and operations. All products provide outstanding safety. The On Premise laundry program does not use phosphates, harsh acid or alkalinity or alkyl phenol ethoxylate (as many competitors do) for cleaning performance.

P & G PLEDGE

We Hold Ourselves to the Highest Standard

For over 181 years, your safety and the safety of your world has been at the heart of what we do. That's why we have a team of more than 500 scientists & professionals and a rigorous safety process to analyze every ingredient—before we ever consider putting it in one of our products.
