

a. Company Background:

1. Provide company's official registered name. **Cintas Corporation**
2. Provide a brief history of your company, including the year it was established.

Cintas started from very humble beginnings in 1929 when "Doc" and Amelia Farmer established a small business to reclaim and clean rags for local factories. Their son, Hershell became president of the company in 1952 after his father's death and, after 23 years of continued success, turned the helm over to his son, Richard "Dick" Farmer. The company entered the uniform rental business in 1965, a move that would dramatically reshape the company and revolutionize the uniform marketplace. For example, Cintas was the industry pioneer in introducing polyester-cotton blend fabric that doubled the life of uniforms and made cleaning more efficient.

In 1983, the company made its initial public offering of stock.

Scott Farmer, the fourth generation of the Farmer family, currently serves as Chief Executive Officer and Chairman. Phillip Holloman serves as President and Chief Operating Officer.

Today, Cintas has grown into a company that helps more than 900,000 businesses of all kinds and sizes get Ready for the Workday® by providing a wide range of products and services that enhance our customers' image and help keep their facilities and employees clean and safe — every day

The company has more than 500 facilities across North America, including six manufacturing plants and eleven distribution centers employing approximately 42,000 people.

Fortune magazine listed Cintas among America's "Most Admired" companies and Report on Business magazine has named Cintas among the "50 Best Employers in Canada".

3. Provide your company's corporate organizational chart.

Richard T. Farmer – Chairman Emeritus and Founder of Cintas Corporation

Scott D Farmer – Chairman and Chief Executive Officer

Thomas E Frooman – Senior Vice President, Secretary & General Counsel

J. Michael Hansen – Executive Vice President and Chief Financial Officer

Todd Schneider – Executive Vice President and Chief Operating Officer

Mike Thompson – Executive Vice President and Chief Administration Officer

Paul F Adler – Vice President & Treasurer

4. Provide corporate office location. List number of sales and service offices. For each location, list the name of key contact with title, address, phone, fax number, e-mail address, etc. along with resume.

Corporate Office:

6800 Cintas Blvd

Mason, OH 45040

Amanda Wetterer

Major Account Manager – Education

WettererA@cintas.com
513-476-6762

Individual contact information varies per location. Specific individuals will be assigned and provided to customers upon installation of account.

5. If you are a certified W/MBE vendor, provide the percentage of your business that is with W/MBE suppliers.

While Cintas is not a certified W/MBE Vendor, we are committed to having a representative supply base that is as wide and diverse as the markets in which we serve. Our dynamic Supplier Diversity program actively engages with and recruits Minority, Women and Veteran owned business enterprises (M/WVBE) with which to do business. Cintas holds itself accountable to create opportunities for M/WVBEs to add value for our clients.

- We have a corporate-wide initiative to educate our partners on the importance of having a diverse supply chain.
- Look to increase the number of minority, women and veteran owned businesses that provide us with products and services, while maintaining our high standards of quality, competitive pricing and customer service.
- Ensure that every minority, women and veteran owned businesses is treated fairly during the supplier qualification process.
- Encourage and guide M/WVBEs to become certified through the appropriate national organizations.
- Help M/WVBEs to understand Cintas' requirements and vendor related policies and procedures.
- Supplier Diversity champions embedded in all functional business and corporate units
- Creating innovative partnerships with M/WVBEs that offer our clients Tier 2 reportable diverse spending.
- Our Supplier Diversity Program reports to Cintas' Diversity Committee, which is chaired by our CEO Scott Farmer.

6. Provide your company's Dun & Bradstreet (D&B) number. **938288222**

7. Provide company's Safety program, record, awards, certifications and vision.

Cintas Safety vision:

- Every Cintas location is injury-free
- Every partner is engaged in continuously improving safety
- Cintas is widely recognized as one of the world's leaders in safety and health performance

Relevant Data:

- Cintas employee-partners receive safety training covering more than 30 topics each year.
- All Cintas managers are required to attend OSHA's 10-hour Safety Improvement course.

- Cintas was the first in the uniform laundry industry to receive OSHA's Voluntary Protection Program (VPP) Star certification — the highest honor for exemplary safety and health.
- More than 80 Cintas locations have received OSHA's esteemed "VPP Star Recognition for Workplace Safety" award. We rank 2nd in the United States for number of sites receiving this distinction.
- Cintas locations in Canada, Honduras and Mexico have all been awarded safety certifications at the highest levels.
- Since 2007, our Total Recordable Injury Rate has dropped an exceptional 67.3%.
- More than 45 of our partners are designated as OSHA Special Government Employees (SGEs) – with the responsibility of mentoring companies in safety and health.
- We designed a patented safety device to help keep our partners safe from electrical hazards.

Relevant Awards:

- More than 80 Cintas locations have received OSHA's "VPP Star Recognition for Workplace Safety" award.
- We rank 2nd in the nation for this highly esteemed OSHA recognition.
- The Cintas Maintenance Safety Certification Program was recently given a Special Recognition Award for Safety at the International Maintenance Conference.
- Our Greensboro, NC location won the International Ergo Cup, and two partners on our team received Practitioner of the Year at the Applied Ergonomics Conference.
- We developed a Maintenance Safety Certification that received a Special Recognition Award at the Uptime Maintenance Conference.

8. Define your standard terms of payment.

All Cintas services receive an invoice at the time of service. Monthly statements are sent as a method of payment – payment terms are net 10, unless approved otherwise upon negotiation of contract.

9. Provide three references from customers in the education sector in Kentucky.

**University of Kentucky – Lexington, KY
Murray State University – Murray, KY
Kentucky State University – Frankfort, KY**

- b. Pricing: All pricing submitted must be inclusive of all fees and service charges. Pricing sheets must include ITEM NAME, ITEM DESCRIPTION, ITEM NUMBER, MANUFACTURER, MANUFACTURER NUMBER, QUANTITY, UNIT OF MEASURE, EXTENDED PRICE, and FREQUENCY OF SERVICE. Provide pricing sheets for the following services and/or products.

1. Garments: Offerors shall quote pricing for weekly rental/lease of garments with and without cleaning services. List all services and packages separately with pricing sheets as outlined above.
 2. Facility Equipment, Supplies, and Services: Provide pricing on supplies with and without logos. List all services and packages separately with pricing sheets as outlined above.
 3. Deep Cleaning Services: List all services and packages separately with pricing sheets as outlined above.
 4. Attach pricing sheets for special order supplies, equipment, or services, and define what is considered special order.
 5. Attach pricing sheets for other value-added products and/or services for participating member facilities.
- c. Catalog Discount: Provide a fixed percentage discount for items not listed in pricing sheets.
Any items of interest that are not listed in this pricing submittal will be offered at 10% off the national account price.
- d. Tracking Process: Provide in detail your current tracking process for all offered rental services and/or products. Include items listed below.
1. Tracking Workflow
 2. Inventory process: Include validation and reconciliation process.

TruCount™ System

Cintas TruCount™ system allows you to have complete confidence in your uniform program. With remote scanning abilities and on-site reporting functions, you are in full control. Cintas Service Professionals provide reports every week to ensure 100% accountability for every garment. Whether a garment was repaired or still at your facility, you and Cintas will know immediately. Cintas TruCount™ takes the guessing out of your uniform program.

On-site proof of delivery and pickup and receipt to customer.

- **The SSR delivers clean garments that were turned in the week prior.**
- **Dirty garments are scanned individually on-site.**
- **A receipt is provided showing exactly what was delivered and picked up that week for each employee.**
- **Repairs, replacements, and other maintenance are ordered on-site through the PRC (Portable Route Computer).**
- **A history for each barcode can be seen through the PRC.**

Garments are processed, sorted, then scanned at Cintas and Report printed for Accuracy.

- Each garment goes through the entire laundry process, finishing up in the sorting section
- Cintas sorts the garments by the route, day, customer and finally the individual wearer.

- Each garment is scanned as ready to be delivered and a report is printed.

Missing garments are reconciled and Garments are scanned & delivered back to customer.

- Garments misplaced or delayed in mending are notified.
- The missing garments are returned to the appropriate customer and employee.

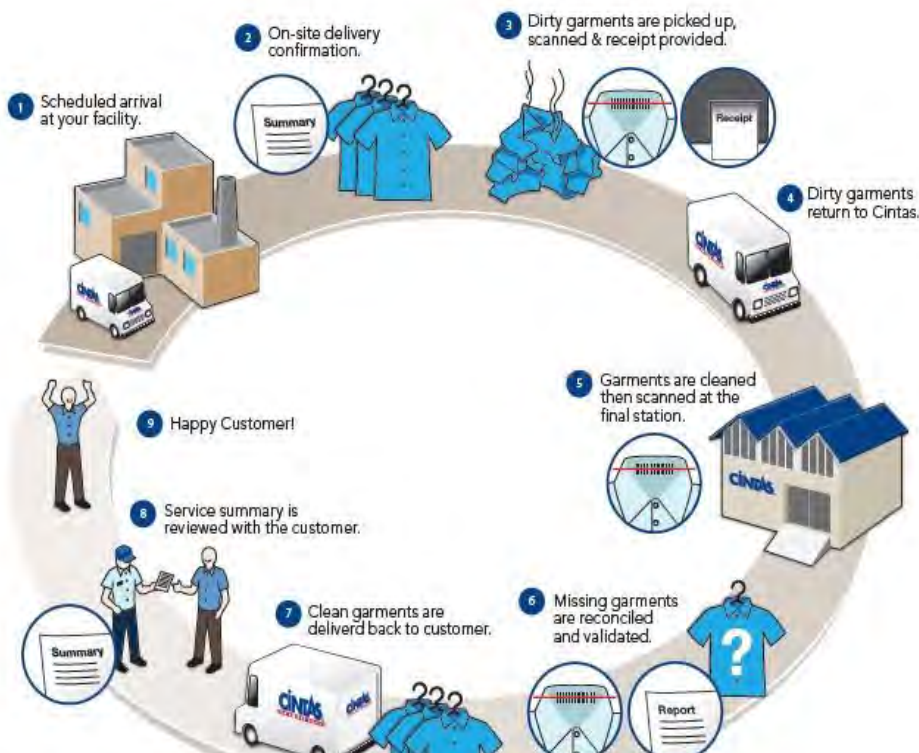

Garments & service summary to customer.

- The SSR delivers the garments and a printed summary of where the garments have been that week.
- Garments that were repaired, replaced, or received other maintenance are noted.

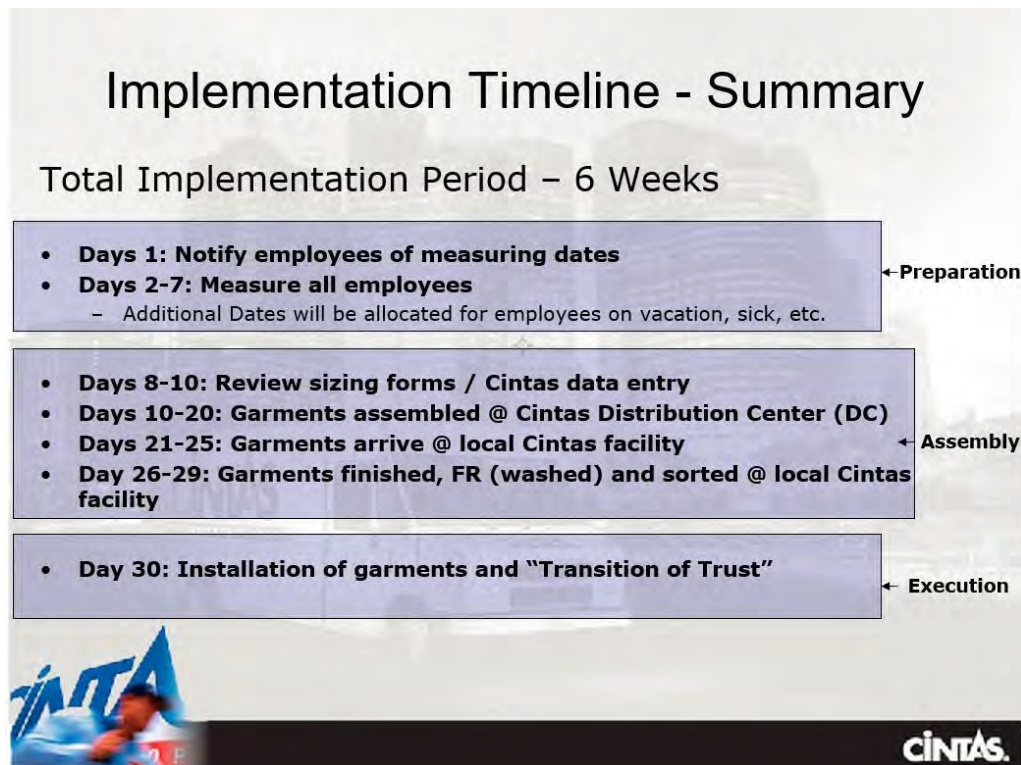

TruCount™

The Inventory Control System you can count on.

Cintas TruCount™ system allows you to have complete confidence in your uniform program. With remote scanning abilities and on-site reporting functions, you get answers on the spot. Cintas Service Professionals provide reports every week to ensure 100% accountability for every garment. Whether a garment was repaired or still at your facility, you and Cintas will know immediately. Cintas TruCount™ takes the guessing out of your uniform program. You are in complete control.

- e. Staffing Plan: A staffing plan is required, which describes the supplier's proposed staff distribution to accomplish work involved in servicing participating members. **Each location falls under the direction of the General Manager. The Service department consists of Service Managers, Service Supervisors, Service Sales Representatives and Customer Service Representatives. Specific individuals will be assigned and provided to customers upon installation of account.**
- f. Implementation Plan: Please include a typical customer implementation plan for services offered.

- g. Environmental:
1. Provide a brief description of any company environmental initiatives, including any green products and certifications to be available through your company.
 2. What is your company's environmental strategy?
 3. What is your investment in being an environmentally preferable product leader?
 4. Do you have any resources dedicated to your environmental strategy? Please describe.
 5. What percentage of your offering is environmentally preferable and what are your plans to improve this offering?
- Cintas has an environmental policy and several other policies that address environmental laws and issues. All Cintas facilities comply with all environmental, health, and safety laws and regulations, including water,**

air, and noise pollution, the transportation, handling and disposal of hazardous materials and waste, right to know laws, and the control of hazardous energy sources. Staff engineers are available to help each location comply with all laws and regulations and each Cintas location is audited at least once each year.

We are committed to environmental and economic sustainability, and that lofty goal demands constant innovation. To help ensure we remain a financially healthy company for many years to come, we are continually looking for more sustainable ways to run our business. At Cintas, every decision, large or small, considers the current and future environmental impact on our employee-partners, communities and customers.

Cintas is committed to the communities in which we do business and will conduct that business in an environmentally sustainable manner. We do that in the following ways:

Laundry Facilities

- **Laundry Environmental Stewardship Program (LaundryESP®)** - Cintas is a charter member of the Laundry Environmental Stewardship Program (LaundryESP®), whose intent is to improve the environmental performance in the industrial laundry industry.
- **Waste Water Treatment** - Unlike individual home-washing, Cintas laundry facilities treat waste water before discharging it and recycle water which reduces water usage and the amount of pollutants discharged to publicly owned treatment works and the environment.
- **NPE-Free (Nonylphenol Ethoxylate) Detergents** - Cintas has transitioned companywide from a Nonylphenol Ethoxylate (NPE) based detergent to a new, more environmentally friendly detergent for use in all of our laundry facilities. Cintas was the first major industrial laundry company to convert 100% from a Nonylphenol Ethoxylate based detergent.

Energy Usage

- **Energy Star** - Cintas has partnered with the U.S. Environmental Protection Agency on its ENERGY STAR program. The program provides a strategic approach to energy management by tracking an organization's current energy-efficiency and future improvement. The focus on energy usage benefits both consumers and the environment by lowering utility bills and increasing the use of energy-efficient products and practices.
- **Cintas uses Ecova**, an energy and sustainability management company, which tracks the consumption and cost of utilities, as well as our carbon footprint data. This allows us to establish a baseline for improving energy usage and carbon emissions.
- **Electricity** - In an average Cintas facility, approximately 25% of electricity usage comes from lighting. Cintas is converting all facilities to energy efficient lighting.
- **Heat-Air Recycling** - Through new innovations like heat-air recycling, Cintas has cut in half the electricity once required to complete the laundry process.
- **Heat Re-Claimers** - Cintas laundry facilities have heat re-claimers which reclaim about 95% of waste heat from boilers allowing us to use no energy to heat incoming water.
- **Modern Moisture Measurement Methods** - Cintas has been able to achieve as much as a 50% reduction in garment drying time by using modern moisture measurement methods, saving significant amounts of fossil fuel and related greenhouse gas emissions.

Fuel Usage

- **Condensed Routes** - Over 75% of Cintas' five-day routes have been geo-coded and condensed into four-day routes to save fuel and reduce the number of vehicles on the road.

- **Idle Shut-off** - Cintas has installed idle shut-off software on delivery trucks to reduce fuel consumption.
Cintas' Sustainable Products and Services
Plant-based AR Red™ Collection
Made with DuPont™ Sorona® renewably sourced fiber, the fabric we use in our AR Red Collection reduces carbon dioxide emissions used in the manufacturing process by as much as 63 percent. The collection was created in collaboration with the well-known Austin Reed brand, and consists of options for both men and women.
Promotional Products
- Cintas created the “Go Green” logo to easily identify products made from “green” content. From organic tote bags and recycled notebooks to energy-savers for appliances and bamboo accessories, we offer a variety of items for your sustainable business practices
Facility Services
- **Sanis UltraClean® Service/Carpet Cleaning Service/Paper Products** - The majority are Green Seal® Certified. Green Seal® Certification ensures that a product meets rigorous, science-based environmental leadership standards. Green Seal® Certification assures manufacturers and purchasers that certified products are better for human health and the environment.
- **Cintas' Safe Washer™** - Instead of using solvents, we use an environmentally friendly cleaning solution that is non-toxic and non-hazardous to the environment or end-user.
Sanis® Cleaning Chemical Service – This service reduces cleaning chemical usage and water consumption. Approximately 30% less chemical is used from our Sanis® Cleaning Chemical Service than when free pouring concentrates (incorrectly mixed or accidentally spilled).
- **Signet Cleaning Chemical Service** - This service reduces cleaning chemical usage and water consumption. Approximately 30% less chemical is used from our Signet® Cleaning Chemical Service than when free pouring concentrates (incorrectly mixed or accidentally spilled)
- **Cintas' Drain Line Maintainer** - This service meets the EPA's Design for the Environment challenge for biological commercial kitchen drain line treatments.
- **Microfiber Cleaning System** - Cintas provides the Microfiber Cleaning System which results in more than a 90% reduction in chemical and water use.
- **Phoenix Floor Mats** - We have switched from the industry standard fiber to a newly developed Phoenix fiber. Post-consumer waste is gathered, ground and extruded to produce a high-quality fiber. This new Phoenix fiber keeps thousands of bottles out of landfills each year. The recycled content adds to Cintas' commitment to sustainability and environmental stewardship.
- **Chemtron Coil Cleaning** - Proper professional deep cleaning of A/C units with a Green Clean Process. Pollutants are removed from the A/C unit which reduces in-room energy consumption up to 9% and improves indoor air quality, resulting in health benefits for allergy and asthma sufferers

Choosing Cintas saves enough electricity to heat **5,719 HOMES A YEAR**. That's approximately **1,898,000** gallons of gasoline every year.

Cintas saves **UP TO 599 MILLION GALLONS** of WATER every year over home laundry.

We've invested **more than \$4 MILLION** researching **ZERO-DISCHARGE WATER RECYCLING TECHNOLOGY**.

We were **THE FIRST** industrial launderer to use a **CHEMICAL-FREE, EPA-Endorsed Detergent ACROSS ALL** of our operations.

We currently **RECYCLE UP TO 50%** of the **WASH WATER** in our laundry operations.

Cintas Industrial Laundry provides approximately **20% WATER** savings, **12% ENERGY** savings, and **75% SOAP** savings, compared to home laundry.

Many of our facilities claim and **RECYCLE UP TO 70%** of their waste water, and **TWO FACILITIES USE 100% RECYCLED WATER**.

We offer **MORE THAN 100** uniform styles made with recycled polyester as well as our **Regeneration Collection** made from textiles created with **PLASTIC BOTTLES**.

- h. Additional Information: Describe any/all other features, advantages and benefits of your organization that you feel will provide additional value and benefit to a participating member.

Cintas is proud to partner with a variety of vendors to offer exclusive products to our customers. Please see the attachment for some examples of what Cintas has to offer.

**REQUIRED AFFIDAVIT FOR BIDDERS, OFFERORS AND CONTRACTORS CLAIMING
RESIDENT BIDDER STATUS**

FOR BIDS AND CONTRACTS IN GENERAL:

The bidder or offeror hereby swears and affirms under penalty of perjury that, in accordance with KRS 45A.494(2), the entity bidding is an individual, partnership, association, corporation, or other business entity that, on the date the contract is first advertised or announced as available for bidding:

1. Is authorized to transact business in the Commonwealth;
2. Has for one year prior to and through the date of advertisement
 - a. Filed Kentucky corporate income taxes;
 - b. Made payments to the Kentucky unemployment insurance fund established in KRS 341.49; and
 - c. Maintained a Kentucky workers' compensation policy in effect.

The BIDDING AGENCY reserves the right to request documentation supporting a bidder's claim of resident bidder status. Failure to provide such documentation upon request shall result in disqualification of the bidder or contract termination.

Microfiber Cleaning System for Higher Education Facilities

Maintain a Clean, Safe and Healthy Campus

What's at Risk?

Dead microbes become food for live pathogens and allow them to multiply if not removed from the surface.

Is it challenging and labor intensive to collect soiled microfiber and re-distribute clean microfiber throughout your campus buildings? Let Cintas ensure the proper cleaning tools are readily available so your staff can maintain a clean and safe campus.

How the Cintas Service Works

- Onsite survey of your facility
- Service program customized to meet your requirements
- Scheduled program reviews allow for program flexibility, adjusting to your changing needs
- No upfront investment
- Clean product is delivered at a predetermined frequency at each building on campus
- Soiled product is removed from the facility, reducing customer liability
- Inventory control practices implemented during onboard training

Ask me how to complete a Cleaning System for Higher Education Campuses.

Unique Process

- Soiled microfiber is processed separately from other textiles to maintain integrity of the fabric
- Our patented wash process exceeds Center for Disease Control (CDC) guidelines
- Microfiber is hand-inspected after each wash to meet Cintas Quality Assurance standards
- Customized pick up of soiled microfiber and distribution of clean microfiber.

Green Cleaning

- Reduced water and chemical usage
- Less waste to the landfill

Trusted Products. Unmatched Service.

Compelling ROI

- Saves chemical and water usage by up to 95%
- Better mop cost-in-use than string mops
- Improved productivity – save on labor costs

Cleaning for Campus Facilities

- Proven to remove 99.9% of microbes
- Cleans floors 45% better than traditional mops
- Removes 80% more dust and dirt than traditional mops
- Reduces cross-contamination

Improved Productivity

- Cleans up to 20% faster than string mops
- Eliminates time-wasting trips to change water
- Cleans floors 45% better than traditional mops

Ergonomics and Worker Well-Being

- Ergonomically designed
- Lightweight construction reduces user fatigue

Microfiber Available for Cintas Rental Service:

Product	Color
15" x 18" Microfiber Wipe*	White/Gray
Microfiber Tube Mop	Green
Flexi High Duster	White
Microfiber Mop Heads	Gray
Microfiber Mop Handles	Gray

*Other sizes and/or colors may be available by market.

Color-Coded System Virtually Eliminates Cross-Contamination

Color-coded microfiber products can be used for multiple applications on a wide variety of surfaces. The color-coded system prevents a cloth or mop that is used to clean a dirty restroom from later being used in the common areas.

or visit cintas.com/facilityservices. In Canada, visit cintas.ca/facilityservices

CINTAS \equiv WELLNESSMATS®

Designed and constructed to ease the physical strain that comes with long periods of standing on the job, anti-fatigue mats reduce the stress that could lead to long-term injuries. With our anti-fatigue mats, your employees feel comfortable—making them **ready™** to be productive.

33% more foam
provides superior comfort

WEAR RESISTANT

Bounce-back technology provides a wear resistant product that maintains its condition longer

STAIN RESISTANT

Polyurethane coating creates a stain resistant, easy-to-clean surface

SMOOTH TRANSITION

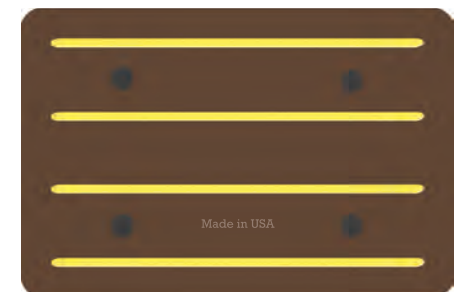

20 degree beveled edge helps reduce curling so the mat continues to lay flat

CUTAWAY
VIEW

Preferred by 95% of people over standard anti-fatigue mats*

INNOVATION AND DESIGN

Help reduce mat movement with the Cintas exclusive dual gripper system. All Cintas rental mats are certified for high-traction by the National Floor Safety Institute.

(Underside of mat) Cintas dual gripper system

RENTAL SERVICE

Focus on your business while we focus on your comfort. Cintas rental mat solutions help keep you worry-free by regularly servicing and maintaining your mats.

EXCLUSIVE PARTNERSHIP WITH
WELLNESSmats®

CINTAS
READY FOR THE WORKDAY™

Seconds matter when a heart goes into sudden cardiac arrest.

Is your business prepared and **Ready™** to respond?

A prompt response can be the difference between life and death. Start by equipping your business with industry-leading AED technology and professional onsite training and service.

Choose from leading manufacturers, incorporating the most advanced life-saving technology in the industry.

ZOLL® AED Plus

The ZOLL® AED Plus is the only AED with "Real CPR Help" that can measure CPR depth.

- Real CPR Help has been clinically shown to more than double survival rates of SCA victims*
- Synchronized 5 year pad and battery life to help ensure device readiness
- One-piece CPR-D-Padz® help reduce the error in pad placement

Reviver® View

The Reviver® View is the only AED device that incorporates an interactive video display.

- Video and text display allows real time coaching, even in noisy environments
- Two button operating system for ease of use
- Pre-connected pads with color and visual diagrams helps reduce time to shock
- Charging time of 4 seconds helps reduce time to shock

Philips HeartStart OnSite

The Philips HeartStart OnSite is designed to be lightweight but powerful and easy to use.

- Turns on with easy-to-use pull handle
- CPR coaching during a rescue
- Safely delivers maximum shock strength
- Quick Shock feature to minimize interruptions to CPR chest compressions

The AED Service Agreement

How the service works

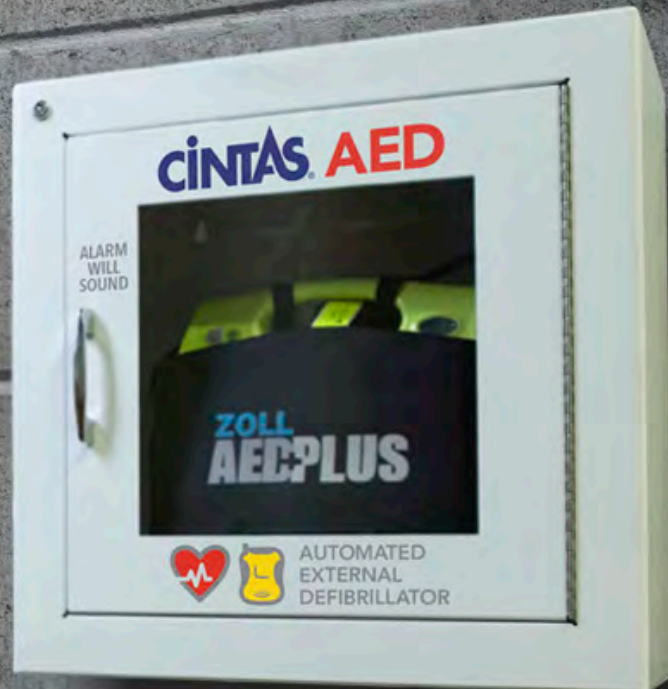

Bystander CPR combined with effective defibrillator use **more than triples a victims chance of survival.*** Learning proper CPR and understanding how to best use an AED is critical. Cintas certifies more than 300,000 individuals in AHA Heartsaver First Aid, CPR/AED Training each year. Ask your dedicated service professional about your training options today.

*2013 Mesa Arizona OHCA Study

*American Heart Association

- 2 pair nitrile gloves
- 2 roller gauze
- 1 trauma shears
- 1 permanent marker
- 1 instruction card

FIRE PROTECTION

Cintas Fire Protection

Fire Protection Industry – NFPA, AHJ, Insurance

The NFPA, or National Fire Protection Association, is an international non-profit organization that develops and publishes fire protection codes and standards to which businesses are held.

Your facility's AHJ, or Authority Having Jurisdiction, is the organization responsible for enforcing the codes and standards set by the NFPA. An AHJ is often a fire marshal.

Many insurance companies have fire protection requirements in their policies that go beyond the local minimum requirements. Should a fire occur and these requirements are not met, you will be viewed as negligent and your insurance company will not cover the damage caused by the fire.

Fire Protection Services

BE READY™: FIRE PROTECTION SERVICES

EXTINGUISHER INSPECTION

With professional inspections, you'll have confidence that you are keeping your fire extinguishers functioning properly and compliant with current fire codes.

EMERGENCY & EXIT LIGHTS

Fully operational emergency lights and exit signs are critical during a power outage or emergency. But they do require monthly checks and annual inspections.

KITCHEN SUPPRESSION

Your kitchen is always at risk for a potential grease fire. But water can actually spread this type of fire — so having regular inspections is vital.

FIRE EXTINGUISHER TRAINING

Having your employees trained to properly use a fire extinguisher is important. Cintas provides hands-on training with fire simulations in a safe learning environment.

FIRE ALARM PANEL

Alarm panels can be extremely complicated. Let a certified provider like Cintas eliminate some of the headaches that come with having to inspect them.

FIRE SPRINKLER SYSTEMS

A well-maintained sprinkler system can slow a fire's progress until firefighters arrive. Unfortunately, without regular testing and inspections your system may not be ready.

FIRE ALARM MONITORING

Count on Cintas for alarm monitoring. Our wireless system CintasNet® delivers a faster transmission speed — linking your alarm panel to your local EMS.

HAZARD SUPPRESSION

A clean agent system can extinguish a fire quickly while minimizing damage to sensitive electrical and manufacturing equipment.

The Cintas Difference

Value Inspection Program

Our People | Our Process | Our Promise

All Cintas Fire Protection work is guaranteed under our VIP program.

Our People

Fire Protection Expertise
